

Corinthian Yacht Club 2011 Goals

We the 2011 board will continue the tradition of CYC with focus on the essential elements of the Club: the members and the facility.

For the membership we will strive to provide for your expectations and with your help:

- Communicate with transparency
- Provide the appropriate social environment and planned events to promote our shared interest in boating and water sports.
- Promote relationships with like minded clubs up the Potomac and throughout the Bay through our memberships in the PRYCA and CBYCA.
- Promote positive relations with our local community through involvement, outreach and by being good neighbors.
- Continue to recruit new members that share our interests and appreciate what our Club has to offer.

For the facility we will strive to preserve and continuously improve our second most important asset, our property on Jutland Creek and with your help:

- Bring to completion major projects started in previous years to include:
 - Septic system renovation
 - Cottage 6 replacement
 - C Dock re-roof
- Start Sea wall renovation
- Plan future capital improvements identified in the strategic plan.
- Preserve our solid financial position as we keep our Club ship shape.

Jim Tapp, Commodore
